MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 436

The following revised Missouri standards and statements of work (SOW) have been posted on the Missouri eFOTG. The revised SOW is located in Section IV, under the related Conservation Practice.

Spoil Spreading (572) – standard, specification and statement of work

This is a new standard for the spreading of surplus excavated materials (spoil) from channels, drainage ditches and irrigation canals.

Revised material will be archived in the appropriate section of the eFOTG under an “Archived Materials Folder”.

Field offices should use SOWs for guidance on practice design, installation and documentation. If you have any questions regarding material in this transmittal, contact Marty Comstock, Agricultural Engineer, Columbia, Missouri.

A handwritten signature in cursive script that reads "Roger A. Hansen".

ROGER A. HANSEN
State Conservationist
