MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 439

The following revised Missouri standard and statement of work (SOW) has been posted on the Missouri eFOTG. The SOW is located in Section IV, under the related Conservation Practice.

*Prescribed Grazing (528) – standard and statement of work*

Most changes reflect recent changes in the National practice standard. One major change was made to this standard. It is now a requirement that for Purposes 1 through 3 a planned grazing system must be designed that will meet all the requirements of Table 1- Grazing Management Guidelines. Other minor format changes were made.

Field offices should use SOWs for guidance on practice design, installation and documentation.

If you have any questions regarding material in this transmittal, contact Mark Kennedy, State Grassland Conservationist, Top of the Ozarks RC&D Office, Houston, Missouri.

A handwritten signature in black ink that reads "Roger A. Hansen".
