MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 490

The following Missouri conservation practices and statement of work have been posted on the Missouri eFOTG:

- *Restoration and Management of Rare or Declining Habitats (643)- Standard and SOW*
Changes can be found in “General Specifications Applicable to all Habitats”. Changes have been made to criteria related to seed mixes. “
- *Upland Wildlife Habitat Management (645): Standard and SOW*
Substantive changes can be found in “CRITERIA - Permanent Vegetative Cover (Grasses, Legumes, Forbs – borders/cover strips/block plantings) - Seeding Rate Options”, “CONSIDERATIONS”, and “TABLE 1”. Changes have been made to criteria related to seed mixes and seed source requirements.”

If you have any questions regarding Restoration and Management of Rare and Declining Habitats (643) or Upland Wildlife Habitat Management (645) contact Chris Hamilton, State Biologist, Columbia, MO.

A handwritten signature in black ink that reads "J.R. Flores".
