MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 500

The following Missouri Conservation Practice Standard, Statement of Work (SOW) and Jobsheet Agron-22 have been posted on the Missouri Field Office Technical Guide (FOTG):

- *Cover Crop (340) – Standard and SOW*
Changes have been made to clarify broadcast seeding rates (refer only to the tables), allowable harvest uses, and seeding rate information where needed.
- *JS-AGRON-22 - Cover Crop Design and Documentation Worksheet*
This spreadsheet tool replaces the previous JS-AGRON-22 worksheet for Winter Cover Crops. The spreadsheet can be used for determining seeding rates and total amounts needed for single species and mixtures of cover crop species

If you have any questions regarding the Cover Crop Standard and JS-Agron-22 please contact Glenn Davis, Conservation Agronomist, Columbia, MO.

A handwritten signature in black ink that reads "J.R. Flores".
