**MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 506**

To be compliant with National Bulletin 450-13-2, dated October 7, 2012, the restructured list of resource concerns & planning criteria for conservation planning have been posted on the Missouri Field Office Technical Guide under Section III, Resource Quality Criteria for RMS.

States have been directed to replace the existing Resource Concerns with the updated National and State Resource Concerns and Planning Criteria for Conservation Planning. However, during this transition year states will continue to use the existing list of concerns for program application ranking in the ProTracts Application Evaluation and Ranking Tool (AERT).

If you have questions, regarding Resource Concerns please contact Jodie Reisner, State Conservation Agronomist, Columbia, Missouri.

A handwritten signature in black ink that reads "J.R. Flores". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

J.R. Flores  
State Conservationist
