MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 515

The following Missouri Conservation Practice Standards, Specifications, Statements of Work (SOW) and Information Sheet have been posted on the Missouri Field Office Technical Guide under Section IV > Conservation Practices:

- ***Roof Runoff Structure (558): Standard, Specification, SOW and Information Sheet***
Revision to the conservation practice date and addition of an information sheet to assist with design of system.
- ***Waste Treatment Lagoon (359): Standard, Specification and SOW***
Revision to comply with new Missouri Department of Natural Resource regulations published in 2012.

If you have any questions regarding the material in this transmittal, please contact Troy Chockley, Environmental Engineer, Columbia, Missouri.

A handwritten signature in black ink that reads "J.R. Flores". The signature is fluid and cursive, with a long horizontal line extending to the right.

J.R. Flores
State Conservationist
