MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 520

The following Missouri Conservation Practice Standards, Statements of Work (SOW) and Job Sheets, have been posted in Section IV of the Missouri Field Office Technical Guide:

- *Woody Residue Treatment (384): Standard, SOW, and Job Sheet* – This state revision incorporates the content of the national standard, including a name change from *Forest Slash Treatment*. The revision also includes a new Purpose of “Develop Renewable Energy Systems” and the accompanying additional Criteria.
- *Access Control (472): Standard and SOW* – This state revision incorporates only a date change.
- *Forest Trails and Landings (655): Standard, SOW, and Job Sheet* – This state revision incorporates the content of the national standard, including a practice unit change from acres to feet (feet will be the primary unit, with acres as an alternate unit) and changes to the “General Criteria Applicable to All Purposes”. Expanded seeding tables were also added.
- *Forest Stand Improvement (666): Standard, SOW, and Job Sheet* – This state update incorporates the content of the national standard, including adding the term “pollinator” to the “Additional Criteria to Enhance Wildlife Habitat” section. Other minor revisions were included throughout the practice standard.

If you have any questions regarding the material in this transmittal, please contact Nate Goodrich, State Forester, Columbia, Missouri.
