MISSOURI TECHNICAL GUIDE TRANSMITTAL NO. 526

The following Missouri Conservation Practice Standards, Specifications, Operation and Maintenance (O&M) and Statements of Work (SOW) have been posted on the Missouri Field Office Technical Guide under Section IV > Conservation Practices:

- *Dry Hydrant (432): Standard, Specification, O&M and SOW –*  
Change in Purpose Statement to specify all weather access to water source.
- *Lined Waterway or Outlet (468): Standard and SOW –*  
A minor change in wording made relating to velocity criteria.

If you have any questions regarding the material in this transmittal, please contact Marty Comstock, Agriculture Engineer, Columbia, Missouri.

A handwritten signature in blue ink that reads "J.R. Flores".

J.R. Flores  
State Conservationist
