

**STATEMENT OF WORK**  
**Waste Utilization (633)**  
**Missouri**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

---

## **DESIGN**

### **Deliverables:**

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices:
  - a. Practice purpose(s) as identified in the conservation plan.
  - b. List of required permits to be obtained by the client.
  - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
    - i. Lab certified soil tests;
    - ii. Manure tests when applied
    - iii. Planned waste utilization method with budgets of nutrient applications
    - iv. Methods, rate and timing of nutrient applications
    - v. Crop rotation
    - vi. Additional requirements applicable to manure or organic materials, non-point source pollution, soil condition, air quality and actions to protect sensitive water areas
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to implement the practice and obtain necessary permits.
3. Operation and maintenance plan.
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during implementation as required.

---

## **INSTALLATION**

### **Deliverables**

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Staking and layout according to plans and specifications including applicable layout notes.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the application process and materials meets design and permit requirements.

---

## **CHECK OUT**

### **Deliverables**

1. Records of application:
  - a. Extent and location of practice units applied
  - b. Actual materials applied
  - c. Methods of application
  - d. Actions protecting sensitive water areas
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.

---
