

## Archiving Field Office Technical Guide Information

The majority of the information listed in the Field Office Technical Guide is available in an electronic format. This has reduced the need to maintain a paper copy in individual field offices.

Following is a list of information that must be maintained or archived:

### Section I

Cost Lists for the last ten years.

### Section II

Cropland Interpretations – (HEL Interpretations)

Erodible Land Index -- II-D-8

Rangeland, Grazed Forest Land and Native Pasture Interpretations

Retain all information in this section until it is replaced by an applicable

Ecological Site Description

Cultural Resources Information

Properties Listed on the National Register, all four areas

Threatened and Endangered Species

Map Showing Bull Trout Distribution in Montana.

### Section III

Alternative Conservation Systems

Alternative Conservation Cropping System for Irrigated and Non-irrigated  
Cropland Use, Tables with Alternative T Values (Section III-A-2).

### Section IV

Standards and Specifications

Practices that are currently in a conservation plan or contract.
