STATEMENT OF WORK

Forage Harvest Management (511) Maryland

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in practice standard have been met and are compatible with planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client
 - c. List of facilitating practices (i.e. Pasture and Hay Planting)
 - d. Practice standard criteria-related inventories and analyses to develop forage management plans including but not limited to:
 - i. Description of stage of maturity when forage will be harvested
 - ii. Moisture content at harvest
 - iii. Length of cut when harvested for ensilage
 - iv. Stubble height
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Specification sheet provided to the client that adequately describes the requirements to apply the practice and obtain necessary permits.
4. Identify fields where practice to be applied on a farm or ranch plan map.
5. Operation and maintenance plan
6. Certification that the forage management plans meets practice standard criteria and comply with applicable laws and regulations
7. Design modifications during installation as required

Note: Design work shall be in accordance with the Maryland conservation practice standard. Plans shall be prepared in accordance with the **SUPPORTING DATA AND DOCUMENTATION, Planning Information, Field Data, and Survey Notes** and **Design Data** sections of the Conservation Practice standard.

INSTALLATION

Deliverables

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Application advise
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during implementation
6. Certification that the application process meets the forage management plan and permit requirements

Note: Check out and certification of the conservation practice shall be in accordance with the **SUPPORTING DATA AND DOCUMENTATION, Construction Check Data/ As-Built** section of the Conservation Practice standard.

CHECK OUT

Deliverables

1. Records of application
 - a. Extent of practice units applied
 - b. Documentation of stubble height for perennial forage
