

**ENVIRONMENTAL EFFECTS FOR CONSERVATION PLANS AND  
AREAWIDE CONSERVATION PLANS (NC-CPA-52)**

**SOCIAL CONSIDERATIONS  
NORTH CAROLINA HELP SHEET**

In order to determine the social effects, consider the following questions when filling out the NRCS-CPA-52. **If you answer yes to any of these questions, further review or explanation may be necessary.** When the answer is no, no further data is needed, and the decision is noted in the planning support file.

<b>CLIENT WELL-BEING</b>	<b><u>YES</u></b>	<b><u>NO</u></b>
Are farmer attitudes toward certain conservation practices likely to affect the success of the project?		
Will there be a change in the quality of life, lifestyle, attitude, and/or behavior?		
Will social, family, or religious values be affected?		
Are farm residents likely to be affected negatively by the activity?		
Are there typical or unique characteristics of farms that may have relevance to the activity (absentee landowners, land use ethic, etc.)?		
Some characteristics (age, planning horizons, special emphasis groups, resources, etc.) are not considered during planning?		
Will change negatively affect the client's ownership/lease of the land?		
Will client tenure affect installation and management of the conservation system?		
Is time available (absentee or part-time landowner, etc.) for installation and management of the conservation system?		

<b>COMMUNITY WELL-BEING</b>	<b><u>YES</u></b>	<b><u>NO</u></b>
Are people likely to be adversely affected by the activity?		
Will there be an effect on life, health, and/or safety?		
Local community standards regarding health and safety were not followed?		
Are there historical factors that are likely to be relevant in the proposed activity (changes in land use, farm management techniques, etc.)		

**COMMUNITY WELL-BEING (continued)****YES****NO**

Are there communities in the study area that would be affected adversely by the proposed activity (loss of recreation, etc.)?		
Are there community organizations, church groups, etc. that would be adversely affected by the proposed activity?		
Are there potential areas of conflict?		
Will community cohesion and/or stability be affected negatively?		
Will this change affect just some individuals and/or groups?		
Will this change create inequity among individuals and/or groups?		

**ENVIRONMENTAL JUSTICE****YES****NO**

The program, procedure, or activity carried out has disproportionate adverse human health or environmental effects on minority or low income populations?
