

STATEMENT OF WORK
Forest Stand Improvement (666)
North Carolina

These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific Statements of Work.

DESIGN**Deliverables**

1. Design documents that comply with the purpose of the practice selected by the decision-maker and the applicable criteria in the NRCS practice standard and are compatible with other planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Determination of the harvest-regeneration strategy and the species of tree and understory vegetation to be retained.
 - ii. Timing and method of removal for trees and understory to be eliminated.
 - iii. Mitigation of wildfire hazard, erosion, runoff, soil compaction and soil displacement to acceptable levels.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describe the requirements to install the practice and obtain necessary permits (refer to PLANS AND SPECIFICATIONS section of the practice standard).
3. Documentation of needed operation and maintenance (refer to OPERATION AND MAINTENANCE section of the practice standard).
4. Certification that the design meets practice standard criteria and complies with applicable laws and regulations.
5. Design modifications during installation as required.

INSTALLATION**Deliverables**

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Layout and, as applicable, sample marking of 'leave' trees or 'take' trees according to plans and specifications, including applicable layout notes.
4. Application guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the application process and materials meet design and permit requirements.

CHECK OUT**Deliverables**

1. Records of application:
 - a. Extent of practice units applied.
 - b. Actual mitigation measures used and applied.
 - c. 'As Built/Installed' drawings/maps for client as appropriate.
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.
