TECHNICAL GUIDE NOTICE ND-132

This notice transmits revisions to the Field Office Technical Guide (FOTG) as follows:

Section III:

- The Conservation Systems and Conservation System Guides (by county) will no longer be used and have been removed from Section III.

Section IV:

- The following National Conservation Practice Standards have been adopted by North Dakota and posted to the FOTG:
 - Conservation Cover – 327
 - Conservation Crop Rotation – 328
 - Residue and Tillage Management, No Till/Strip Till/Direct Till – 329
 - Cover Crop – 340
 - Residue Management, Seasonal – 344
 - Residue and Tillage Management, Mulch Till – 345
 - Irrigation Water Management – 449
 - Nutrient Management – 590
 - Vegetative Barrier – 601
 - Herbaceous Wind Barriers – 603
- Conservation Practice Pest Management has been revised and renamed Integrated Pest Management (IPM) – 595. The Standard has been posted to Section IV – B. Conservation Practices.
- Conservation Practice Waste Utilization has been revised and renamed Waste Recycling – 633. The Standard and Statement of Work (SOW) for Waste Recycling – 633 have been posted in Section IV – B. Conservation Practices.

Question concerning the standards should be directed to Ted Alme, State Agronomist, at (701)530-2079 or ted.alme@nd.usda.gov
