

STATEMENT OF WORK
Air Filtration and Scrubbing (371)
North Dakota
Contact: Christi Fisher (701) 530-2091

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of associated eFOTG conservation practices included in the project.
 - c. List of required permits to be obtained by the client and regulations to be met
 - d. Compliance with NRCS national and state utility safety policy (NEM Part 503-Safety, Subpart A - Engineering Activities Affecting Utilities 503.00 through 503.06).
 - e. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Targeted emissions and source
 - ii. Required emission reduction
 - iii. Reduction calculations, analysis, etc.
 - iv. Capacity
 - v. Structural, Mechanical, and Appurtenance design
 - vi. Environmental Considerations
 - vii. Safety Considerations
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Design Report and Quality Assurance Plan as appropriate (NEM Part 511, Subpart B Documentation, 511.11 and Part 512, Subpart D Quality Assurance Activities, 512.30 through 512.32).
 - a. The design report shall include, but is not limited to the following:
 - i. Summary of project objectives and work to be completed
 - ii. Management assessment
 - iii. Site assessment
 - iv. Design documentation from item 1 listed above
 - b. The quality assurance plan must describe:
 - i. Project location
 - ii. Project description in narrative format
 - iii. Identification, phone number, and responsibilities of key parties including: landowner, original designer, project QA Inspector, Contractor(s), Certifying (attesting) entity, and Regulatory entity(s).
 - iv. Pre-Construction meeting agenda including the following items: review of QA plan, construction plans and specifications, change orders, responsibilities of key parties
 - v. Items to be inspected
 - vi. Amount of time needed for notification of need of inspection
 - vii. Type and frequency of testing
 - viii. Data collection and documentation required

STATEMENT OF WORK
Air Filtration and Scrubbing (371)
North Dakota

Contact: Christi Fisher (701) 530-2091

4. Detailed Operation and maintenance plan
5. Itemized engineer's cost estimate
6. Certification that the design meets practice standard criteria and comply with applicable laws and regulations (NEM Subpart A, 505.03 (a) (3)).
7. Design modifications during installation as required

INSTALLATION

Deliverables

1. Documentation of pre-installation conference with client and contractor
2. Verification that client has obtained required permits
3. Documentation the NRCS national and state utility safety policy has been met
4. Staking and layout according to plans and specifications including applicable layout notes
5. Installation guidance as needed
6. Quality Assurance documentation
 - a. Actual materials used
 - b. Inspection records
 - c. Maintaining a job diary with the dates and record of inspections made, testing completed, instruction provided to the contractor, etc., to document compliance with standards and specifications
7. Facilitate and implement required design modifications with client and original designer, permitting and funding agencies.
8. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
9. Certification that the installation process and materials meets design and permit requirements

CHECK OUT

Deliverables

1. As-Built documentation.
 - a. Extent of practice units applied
 - i. Location identified on a map
 - ii. Completed job diary noting inspection made, testing completed, etc.
 - iii. Materials documentation (actual materials used)
 - iv. Testing reports (results and interpretations as required)
 - v. Survey notes for layout, inspections, and final checkout documenting compliance with standards and specifications.
 - b. Drawings with changes from the original construction plans clearly shown.
 - c. Final quantities

STATEMENT OF WORK
Air Filtration and Scrubbing (371)
North Dakota

Contact: Christi Fisher (701) 530-2091

2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits (NEM Subpart A, 505.03(c) (1))
3. Progress reporting. Provide the following information to the NRCS field office servicing the relevant land unit for entry into the Performance Results System (PRS)
 - a. NRCS practice name and quantity of practice installed in appropriate units
 - b. Customer name
 - c. Location of work
 - d. Technical Service Provider Name
4. Completion report in accordance with permit requirements
