TECHNICAL GUIDE NOTICE ND-89

This notice announces revisions to the Field Office Technical (FOTG), Section I as follows:

- Fiscal Year 2006 Cost Lists for WRP and WHIP have been updated and will replace the Cost Lists in eFOTG, Section I, Cost Data. These cost lists will be used to develop new contract support documents in Toolkit. Instructions for uploading the cost lists have been placed in Section I, Cost Data subfolder, Instructions for uploading cost lists in Toolkit.

Note: Cost lists include the components most commonly used for each practice. They do not contain all the possible components for each practice. Therefore, if a component for a practice is not in the existing list, it can be added to the practice in the cost list.

- Nutrient Management Planners for Benson, Eddy, Nelson, Ramsey, and Richland counties have been updated to reflect the new soils legends. The Nutrient Management Planners are located in Section I, Reference Subjects, Agronomy, Nutrient Management, Revised Nutrient Management Planner subfolders.

Questions regarding cost lists may be directed to Stuart Blotter, Resource Conservationist, at (701) 530-2034 or stuart.blotter@nd.usda.gov. Questions concerning the Nutrient Management Planners may be directed to Alan Ness, State Agronomist, at (701) 530-2079 or alan.ness@nd.usda.gov.
