I certify that the following information meets specifications and has been provided to NRCS:

- Documentation of the existing and planned crop rotation and the number of applied acres (complete above table).
- A written narrative of practices used to:
 - Improve soil quality including crop rotation, cover crops and other associated practices
 - Provide plant nutrients
 - Control pests in the cropping system
- A map showing fields where the enhancement was applied including field boundaries and buffer zones.
- A record of the application of inputs according to the NOP rules, e.g., type, date, rate, and amount of allowed nutrients and pesticides.
- Documentation of practices applied and steps taken to receive organic certification based on consultation with an accredited organic certifier.
- Copy of the Organic System Plan when approved by certifying agent.

I understand that it is my responsibility to obtain all necessary permits and to comply with all laws, regulations and ordinances pertaining to the application of these activities.
