

Water Quantity Enhancement Activity – WQT02 – Mulching for moisture conservation

Additional State Criteria

Implementation of this enhancement applies to irrigated lands to reduce evaporation losses from bare soil surfaces. Application of this enhancement requires compliance with the Nebraska Practice Documentation Requirements for Conservation Practice Standard, Mulching (PDR-484)
<http://efotg.nrcs.usda.gov/references/public/NE/NE484DP.pdf>.

DOCUMENTATION REQUIREMENTS

Complete the Table below:

To be completed by NRCS and Producer during planning			To be completed by Producer during certification	
1	2	3	4	5
Tract	Field(s)	Acres Planned	Description of type of mulch used	Ac of Irrigated land using mulch

COLUMNS 1-3 NRCS COMPLETES, COLUMNS 4-5 PRODUCER COMPLETES

Participant Acknowledgement Statement:

I agree to apply this enhancement under the terms and conditions of my CSP contract and understand the requirements of the activity.

I certify that I have used biodegradable plastic or fiber mulching material to reduce irrigation evaporation losses from bare soil surfaces on the field(s) listed in the table above meets these specifications including the following documentation as applicable:

1. Written documentation of the activity performed.
2. Copies of dated receipts for equipment or services purchased.
