

Air Quality Enhancement Activity – AIR03 – Replace burning of prunings, removals and other crop residues with non-burning alternatives

State Criteria (same as NATIONAL CRITERIA)

The use of non-burning alternatives to dispose of prunings, removals and other crop residues from orchards, vineyards and other woody perennial crops. Non-burning alternatives include chipping, grinding, shredding, mowing or composting of these materials.

Documentation Requirements (SEE NATIONAL ENHANCEMENT ACTIVITY JOBSHEET)

Complete the Table below:

To be completed by NRCS and Producer during planning			To be completed by Producer during certification		
1	2	3	4	5	6
Tract	Field	Acres Planned	Acres Applied	Applied Location	Type of non-burning alternative used
<i>Ex. T1001</i>	<i>1</i>	<i>10 acres</i>	<i>10 Acres</i>	<i>T1001 Field 1</i>	<i>chipping</i>

Ex. = example. NRCS completes column 1, 2 & 3 (Tract, Field and Acres Planned, etc). Operator completes remaining columns.

I certify that the following information meets specifications and have been provided to NRCS:

1. A map showing farm areas where these activities were conducted and applied
2. Dates, locations and type of non-burning alternatives used

I understand that it is my responsibility to obtain all necessary permits and to comply with all laws, regulations and ordinances pertaining to the application of these activities.
