

Plant Enhancement Activity – PLT25 – Prune low density pine or hardwood trees to improve tree quality and wildlife habitat

State Criteria (same as NATIONAL CRITERIA)

Additional Criteria for Nebraska

Treatments involving extensive branch removal should not occur during the primary nesting period for migratory birds (April 1 to July 15) with consideration for early or late nesting species (i.e. raptors).

Documentation Requirements (SEE NATIONAL ENHANCEMENT ACTIVITY JOBSHEET)

Additional State Documentation Requirements

Complete the Table below:

To be completed by NRCS and Producer during planning			To be completed by Producer during certification		
1	2	3	4	5	6
Tract	Field	Acres Planned	Acres Applied	Pruning Description Species and Number per Acre	Date Completed
<i>EX. T1001</i>	<i>1</i>	<i>10</i>	<i>10</i>	<i>Black Walnut – approx.. 50/acre Hackberry and Green Ash – approx. 50/acre (combined)</i>	<i>11/15/2015 02/15/2016</i>

EX= EXAMPLE, COLUMNS 1-3 NRCS COMPLETES, COLUMNS 4-6 PRODUCER COMPLETES

I certify that the enhancement criteria have been met and the required documentation provided to NRCS for review.

1. Site description that identifies each stand and approximate species composition and density.
2. Map showing each stand and where treatments were applied (highlighted, outlined, etc.).
3. Documentation of completed management activity, as required. – (COMPLETE TABLE ABOVE)
4. Representative digital images of the area showing before and after photos of the area that was treated.
