GRAZING MANAGEMENT ENHANCEMENT

July 2005

LOWER BIG BLUE AND LOWER LITTLE BLUE WATERSHEDS IN NEBRASKA

Name: _____

Develop grazing management plans using decision support tools

Payment = \$1.00 per year for acres with annual grazing management plans where decision support tools are used to help in the grazing management decision making process.

The use of an approved grazing decision support tool, to achieve more consistent or effective results from grazing management plans: These tools may include, NUTBAL, GSAT, Grazing Response Indexes, or other programs that help analyze individual or numerous parameters of grazing management for decision support.

Documentation Required: Use the following table for documentation and attach a plan map showing the location of management units involved in the decision support tool use. An example is provided to assist you.

Management Units	Decision Support Tool Used	Acres Managed	Year
Field 9 <i>Example</i>	Nutrition Balance "Nut-Bal"	13.5	2005

Management Units	Decision Support Tool Used	Acres Managed	Year

Operation and Maintenance: Utilize grazing land decision support tools annually to develop and modify grazing plans in an effort to achieve optimum results of grazing plans.

Documentation: Signed certification that decision support tools are utilized to aid in annual grazing plan development and attached grazing plan including decision-tool based modifications.

Certification:

I certify that I have applied the decision support tool described in the narrative for the field(s) listed in the table above.
