GRAZING MANAGEMENT ENHANCEMENT

July 2005

LOWER BIG BLUE AND LOWER LITTLE BLUE WATERSHEDS IN NEBRASKA

Name: _____

Construct animal trails and walkways to provide access to all pastures

Payment = \$1.00 for each acre located in the management unit where trails or walkways are installed.

The construction of animal trails, walkways, or lanes which are used in grazing systems, providing access to pastures used in a grazing system. Creation of specific trails or walkways may reduce the extent of soil compaction, effects on infiltration and reduce soil losses through erosion. Trails, corridors and walkways are commonly used in intensively managed improved pasture grazing systems.

Documentation Required: Use the following table for documentation and attach a plan map showing the location of the trails or walkways. An example is provided to assist you.

Management Units	Acres In Management Unit	Year Constructed	Year Maintained
Field 9	Example 13.5	2005	

Management Units	Acres In Management Unit	Year Constructed	Year Maintained

Operation and Maintenance: Animal walkways shall be constructed and maintained as needed to facilitate livestock movements in a manner that reduces the extent of soil compaction and the effects on infiltration and reduce soil losses through erosion.

Documentation Required: Signed certification animal walkways have been constructed and are maintained.

Certification:

I certify that I have constructed and/or maintained trails and/or walkways as explained in the narrative in the field(s) listed in the table above.
