New map units added as the result of a re-correlation of several map units in Keya Paha County and published as the Keya Paha County Subset in 2004. Field work was conducted from 2001-2003. The new map units were assigned the same HEL Classification as the map units they replaced in the original survey.

New map units added as the result of a re-correlation of several map units in Knox County and published as the Knox County Subset in 2004. Field work was conducted from 2000-2003. The new map units were assigned the same HEL Classification as the map units they replaced in the original survey.
