National Priorities Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.	
1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other national level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.	250 Point(s)
Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)	
2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	15 Point(s)
2. b. Implementing the practices in a Nutrient Management Plan (NMP)?	10 Point(s)
2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated “impaired water body” (TMDL, 303d listed waterbody, or other State designation)?	10 Point(s)
2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a “non-impaired water body”?	10 Point(s)
2. e. Implementing practices that improve water quality through animal mortality and carcass management?	10 Point(s)
Water Conservation – Will the proposed project conserve water by: (select all that apply)	

3. a. Implementing irrigation practices that reduce aquifer overdraft.	15 Point(s)
3. b. Implementing irrigation practices that reduce on-farm water use?	10 Point(s)
3. c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	10 Point(s)
3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	10 Point(s)
Air Quality - Will the proposed project improve air quality by: (select all that apply)	
4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	10 Point(s)
4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	10 Point(s)
4. c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	10 Point(s)
4. d. Implementing practices that increase on-farm carbon sequestration?	10 Point(s)
Soil Health:- Will the proposed project improve soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits (Soil "T")?	10 Point(s)
5. b. Increasing organic matter and carbon content, and improving soil tilth and structure?	10 Point(s)
Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)	
6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	10 Point(s)
6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation Reserve Program (CRP) or other set-aside program?	10 Point(s)
6. c. Implementing practices benefitting honey bee populations or other pollinators?	10 Point(s)
6. d. Implementing land-based practices that improve habitat for aquatic wildlife?	10 Point(s)

Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	10 Point(s)
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	10 Point(s)
Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	10 Point(s)
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	10 Point(s)
Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	10 Point(s)

State Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other state level questions. If answer is “No”, proceed with evaluation to address the remaining <u>questions in this section.</u>	250 Point(s)
2. Will the treatment you intend to implement using EQIP result in the protection and improvement to the resource base on all grazing <u>lands in the contract?</u>	24 Point(s)
3. Will the treatment you intend to implement using EQIP result in improved soil quality with the use of either no-till or a resource conserving crop rotation on at least 50% of the land in the contract? See CSP enhancement CCR99 for conserving crop rotation definition.	16 Point(s)
4. Will the treatment you intend to implement using EQIP result in improved water quality?	14 Point(s)
5. Does the applicant who is applying for EQIP qualify for Limited Resource status?	24 Point(s)

6. Will the treatment you intend to implement using EQIP result in the use of variable rate technologies for nutrient application using computer controlled equipment that adjusts fertilizer application based on management zones or grids?	5 Point(s)
7. Will the treatment you intend to implement using EQIP directly benefit a Federal or State listed, threatened, endangered or candidate species as identified in the State wildlife plan (Nebraska Natural Legacy Project)?	26 Point(s)
8. Will the treatment you intend to implement using EQIP result in a considerable reduction in an invasive plant species which has been identified as a statewide concern?	11 Point(s)
9. Will the treatment you intend to implement using EQIP result in the collection and use of livestock manure or city sludge from a CNMP for beneficial uses?	10 Point(s)
10. Will the treatment you intend to implement using EQIP result in wetlands being created, restored or enhanced?	9 Point(s)
11. Will the treatment you intend to implement using EQIP identified in an air quality assessment which will result in improved air quality?	5 Point(s)
12. Will the treatment you intend to implement using EQIP result in pollinator habitat being created or improved? Practice applied result in plantings which include milkweed species among a diverse mix of flowering plants. (Practice 327 Conservation Cover, Pollinator criteria as noted in 645 Upland Wildlife Habitat Management)	9 Point(s)
13. Will the treatment you intend to implement using EQIP result in a tree and/or shrub planting for conservation purposes?	11 Point(s)
14. Will the treatment you intend to implement using EQIP be applied on recently expired CRP, maintaining the CRP cover for the purpose of wildlife habitat, grazing or haying?	31 Point(s)
15. Will the irrigation system improvement you intend to implement using EQIP result in estimated water savings of at least 40% if located within an over appropriated river basin?	9 Point(s)

16. If the applicant who is applying for EQIP is also a previous/present contract holder or has been associated with a contract, has the applicant ever had a contract out of compliance or modified to reschedule a practice without a meritorious reason? Meritorious reason examples include personal hardship, adverse weather conditions, etc.	-25 Point(s)
17. Will the treatment you intend to implement using EQIP result in wind and water erosion control to "T" on all cropland in the contract?	26 Point(s)
18. Is the treatment you intend to implement identified in an current farm plan?	15 Point(s)
19. Will the treatment you intend to implement support the National Soil Health Initiative by including all five of the soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 20 and 21.	15 Point(s)
20. Will the treatment you intend to implement support the National Soil Health Initiative by including three of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 21.	10 Point(s)
21. Will the treatment you intend to implement support the National Soil Health Initiative by including at least one of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 20.	5 Point(s)

Local Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other local level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	400 Point(s)

2. Will the water conservation practice you intend to implement using EQIP result in irrigated cropland being converted to permanent non-irrigated (dryland) cropland with a filed perpetual deed of conservation easement (conservation easement) by the appropriate NRD or other partner agency?	40 Point(s)
3. Will the water conservation practice you intend to implement using EQIP result in irrigated cropland being converted to temporary non-irrigated (dryland) cropland?	20 Point(s)
4. Will the water conservation practice you intend to implement using EQIP improve irrigation efficiency by converting an existing gravity, towline, or traveling gun irrigation system to a center pivot or subsurface drip with low pressure system?	50 Point(s)
5. Will the treatment you intend to implement using EQIP result in sprinkler irrigation system efficiency improvements on all irrigated land in the contract?	30 Point(s)
6. Will the treatment you intend to implement using EQIP result in converting from irrigated to dryland on all HEL soil map units currently irrigated?	60 Point(s)
7. Will the water conservation practice you intend to implement using EQIP result in a water savings greater than 4 to 7.9 acres inches? If yes, do not answer questions 8 and 9.	20 Point(s)
8. 5b. Will the water conservation practice you intend to implement using EQIP result in a water savings greater than 8 to 11.9 acres inches? If yes, do not answer questions 7 and 9.	30 Point(s)
9. Will the water conservation practice you intend to implement using EQIP result in a water savings greater than 12 acres inches? If yes, do not answer questions 7 and 8.	40 Point(s)
10. Will the water conservation practice you intend to implement using EQIP result in irrigated cropland being converted to permanent non-irrigated perennial vegetation for grazing or haying with a filed perpetual deed of conservation easement (conservation easement) by the appropriate NRD or other partner agency on all contracted acres?	50 Point(s)
11. Will the water conservation practice you intend to implement using EQIP result in irrigated cropland being converted to temporary non-irrigated perennial vegetation for grazing or haying on all contracted acres?	30 Point(s)

12. Will soil moisture be monitored as part of irrigation water management on a weekly basis by crop consultant?	15 Point(s)
13. Will soil moisture sensors be used and monitored as part of irrigation scheduling and irrigation water management?	15 Point(s)

If yes do not answer questions 20 and 21.	15 Point(s)
20. Will the treatment you intend to implement support the National Soil Health Initiative by including three of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 21.	10 Point(s)
21. Will the treatment you intend to implement support the National Soil Health Initiative by including at least one of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 20.	5 Point(s)

Local Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other local level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	400 Point(s)
2. Will the treatment you intend to implement using EQIP result in permanent vegetation established on all cropland in the contract?	160 Point(s)

3. Will the treatment you intend to implement using EQIP result in a rotation with 100% no-till on all cropland in the contract?	60 Point(s)
4. Will the treatment you intend to implement using EQIP result in terraces on all cropland HEL map units in the contract?	40 Point(s)
5. Will the treatment you intend to implement using EQIP include utilizing a crop rotation on the EQIP contract acres of at least 3 crops, with at least 25% (on average) small grains or perennial legumes in the rotation?	20 Point(s)
6. Will the treatment you intend to implement using EQIP result in field borders being established, where applicable, with no end rows planted along the field borders on all slopes greater than 5%?	40 Point(s)
7. Will the treatment you intend to implement using EQIP result in reducing erosion to "T" or less on all HEL cropland fields with an existing ACS?	40 Point(s)
8. Will the treatment you intend to implement using EQIP result in water runoff from all cropland being trapped or filtered with practices such as Field Borders, Filter Strips, Riparian Forest Buffers, Riparian Herbaceous Cover, Grassed Waterways, Diversions or Terrace - closed outlet only, Water Sediment Control Basin?	20 Point(s)
9. Will the treatment you intend to implement using EQIP address a targeted resource issue within a Local Work Group identified natural resources area of concern (Creighton Recharge Area, Powder Creek Watershed, NE Game & Parks Legacy Program or other BUL)?	20 Point(s)

17. Will the treatment you intend to implement using EQIP result in wind and water erosion control to "T" on all cropland in the contract?	26 Point(s)
18. Is the treatment you intend to implement identified in an current farm plan?	15 Point(s)
19. Will the treatment you intend to implement support the National Soil Health Initiative by including all five of the soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 20 and 21.	15 Point(s)
20. Will the treatment you intend to implement support the National Soil Health Initiative by including three of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 21.	10 Point(s)
21. Will the treatment you intend to implement support the National Soil Health Initiative by including at least one of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 20.	5 Point(s)

Local Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other local level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	400 Point(s)
2. Will the treatment you intend to implement using EQIP result in ephemeral & gully erosion being adequately controlled on range and pastureland?	20 Point(s)

3. Will the treatment you intend to implement using EQIP address a targeted resource issue within a Local Work Group identified natural resources area of concern (Creighton Recharge Area, Aowa Watershed, NE Legacy program area)?	20 Point(s)
4. Will the treatment you intend to implement using EQIP result in grazing management using a rotation system with facilitating practices on all grazingland in the contract?	60 Point(s)
5. Will the treatment you intend to implement using EQIP result in grazing management using a season long grazing system with facilitating practices on all grazingland in the contract?	40 Point(s)
6. Will the treatment you intend to implement using EQIP result in improved grazing management by the implementation of additional watering sources by installing new dams, dugouts, spring developments, livestock wells, or livestock pipelines in areas that do not have access to water sources?	40 Point(s)
7. Will the management plan include at least one full grazing season of deferment to recover from drought, hail, fire, or other natural disaster or event?	40 Point(s)
8. Will the management plan include at least one full grazing season of deferment to build a fuel load to facilitate a prescribed burn?	80 Point(s)
9. Will the treatment you intend to implement using EQIP result in Grazing Management where a season long grazing system is converted to a rotational system with facilitating practices?	50 Point(s)
10. Will brush management (314) or forest stand improvement (666) be the only practices in the EQIP contract aimed at improving grassland condition? (Only 1 cost shared practice in the EQIP contract).	10 Point(s)
11. Will brush management (314) or forest stand improvement (666) be used in conjunction with other resource practices aimed at improving grassland condition? (2 or more cost shared practices in the EQIP contract).	40 Point(s)
