National Priorities Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.	
1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other national level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.	250 Point(s)
Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)	
2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	15 Point(s)
2. b. Implementing the practices in a Nutrient Management Plan (NMP)?	10 Point(s)
2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated “impaired water body” (TMDL, 303d listed waterbody, or other State designation)?	10 Point(s)
2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a “non-impaired water body”?	10 Point(s)
2. e. Implementing practices that improve water quality through animal mortality and carcass management?	10 Point(s)
Water Conservation – Will the proposed project conserve water by: (select all that apply)	

3. a. Implementing irrigation practices that reduce aquifer overdraft.	15 Point(s)
3. b. Implementing irrigation practices that reduce on-farm water use?	10 Point(s)
3. c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	10 Point(s)
3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	10 Point(s)
Air Quality - Will the proposed project improve air quality by: (select all that apply)	
4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	10 Point(s)
4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	10 Point(s)
4. c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	10 Point(s)
4. d. Implementing practices that increase on-farm carbon sequestration?	10 Point(s)
Soil Health:- Will the proposed project improve soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits (Soil "T")?	10 Point(s)
5. b. Increasing organic matter and carbon content, and improving soil tilth and structure?	10 Point(s)
Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)	
6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	10 Point(s)
6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation Reserve Program (CRP) or other set-aside program?	10 Point(s)
6. c. Implementing practices benefitting honey bee populations or other pollinators?	10 Point(s)
6. d. Implementing land-based practices that improve habitat for aquatic wildlife?	10 Point(s)

Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	10 Point(s)
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	10 Point(s)
Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	10 Point(s)
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	10 Point(s)
Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	10 Point(s)

State Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other state level questions. If answer is “No”, proceed with evaluation to address the remaining <u>questions in this section.</u>	250 Point(s)
2. Will the treatment you intend to implement using EQIP result in the protection and improvement to the resource base on all grazing <u>lands in the contract?</u>	24 Point(s)
3. Will the treatment you intend to implement using EQIP result in improved soil quality with the use of either no-till or a resource conserving crop rotation on at least 50% of the land in the contract? See CSP enhancement CCR99 for conserving crop rotation definition.	16 Point(s)
4. Will the treatment you intend to implement using EQIP result in improved water quality?	14 Point(s)
5. Does the applicant who is applying for EQIP qualify for Limited Resource status?	24 Point(s)

6. Will the treatment you intend to implement using EQIP result in the use of variable rate technologies for nutrient application using computer controlled equipment that adjusts fertilizer application based on management zones or grids?	5 Point(s)
7. Will the treatment you intend to implement using EQIP directly benefit a Federal or State listed, threatened, endangered or candidate species as identified in the State wildlife plan (Nebraska Natural Legacy Project)?	26 Point(s)
8. Will the treatment you intend to implement using EQIP result in a considerable reduction in an invasive plant species which has been identified as a statewide concern?	11 Point(s)
9. Will the treatment you intend to implement using EQIP result in the collection and use of livestock manure or city sludge from a CNMP for beneficial uses?	10 Point(s)
10. Will the treatment you intend to implement using EQIP result in wetlands being created, restored or enhanced?	9 Point(s)
11. Will the treatment you intend to implement using EQIP identified in an air quality assessment which will result in improved air quality?	5 Point(s)
12. Will the treatment you intend to implement using EQIP result in pollinator habitat being created or improved? Practice applied result in plantings which include milkweed species among a diverse mix of flowering plants. (Practice 327 Conservation Cover, Pollinator criteria as noted in 645 Upland Wildlife Habitat Management)	9 Point(s)
13. Will the treatment you intend to implement using EQIP result in a tree and/or shrub planting for conservation purposes?	11 Point(s)
14. Will the treatment you intend to implement using EQIP be applied on recently expired CRP, maintaining the CRP cover for the purpose of wildlife habitat, grazing or haying?	31 Point(s)
15. Will the irrigation system improvement you intend to implement using EQIP result in estimated water savings of at least 40% if located within an over appropriated river basin?	9 Point(s)

16. If the applicant who is applying for EQIP is also a previous/present contract holder or has been associated with a contract, has the applicant ever had a contract out of compliance or modified to reschedule a practice without a meritorious reason? Meritorious reason examples include personal hardship, adverse weather conditions, etc.	-25 Point(s)
17. Will the treatment you intend to implement using EQIP result in wind and water erosion control to "T" on all cropland in the contract?	26 Point(s)
18. Is the treatment you intend to implement identified in an current farm plan?	15 Point(s)
19. Will the treatment you intend to implement support the National Soil Health Initiative by including all five of the soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 20 and 21.	15 Point(s)
20. Will the treatment you intend to implement support the National Soil Health Initiative by including three of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 21.	10 Point(s)
21. Will the treatment you intend to implement support the National Soil Health Initiative by including at least one of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 20.	5 Point(s)

Local Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other local level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	400 Point(s)
2. Using EQIP, I will convert irrigated cropland to wildlife, pasture, or hayland on all irrigated cropland in the contract?	80 Point(s)

3. Using EQIP, I will convert irrigated cropland to non-irrigated cropland on all irrigated cropland in the contract?	80 Point(s)
4. Addressing Ground Water Quality; Will the treatment you intend to implement using EQIP result in the application [receiving an management practice payment] of crop rotation (328) and/or cover crop (340) on all cropland in the contract area?	15 Point(s)
5. Using EQIP, I will convert from a gravity irrigation to a low pressure sprinkler irrigation system, which applies water under a span (radius) with greater than a 270 degrees to a maximum of 360 degree rotation at the center pivot point and/or a "Reduced Water Conserved" equal to or exceeds 6.9 acre inches per acre?	50 Point(s)
6. Using EQIP, I will convert from a gravity irrigation to a low pressure sprinkler irrigation system, which applies water under a span (radius) with greater than a 179 degrees but less than 269 degree rotation at the center pivot point and/or a "Reduced Water Conserved" equal to or exceeds 6.9 acre inches per acre?	40 Point(s)
7. Using EQIP, I will convert from a gravity or high pressure irrigation system to a low pressure sprinkler irrigation system, which applies water "Reduced Water Conserved" that is less than 6.9 acre inches per acre?	10 Point(s)
8. Using EQIP, I will convert from a gravity irrigation to a SDI system?	20 Point(s)
9. Is the applicant requesting a management practice payment(s) (ex: irrigation water management, 449) with or without a 587 - Structure for Water Control for a EQIP contract on all irrigated cropland acres in the contract? All management practice incentives must be identified within the Nebraska Management Practice Payment Criteria for EQIP Practices. If the applicant request is without a 587 - Structure for Water Control, an existing functioning 587 - Structure for Water Control exist on the EQIP contract acres.	70 Point(s)
10. Is this EQIP application located within a CP, LE, LL, LPNDR or LPSNRD groundwater management area (see maps)?	20 Point(s)

11. Would the applicant who is applying for EQIP (water conservation) be receiving their first contract if successfully approved? Note: applicant has never been associated (includes being involved with an entity) that has in the past a EQIP (water conservation) and/or AWEP contract?	15 Point(s)

National Priorities Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.	
1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other national level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.	250 Point(s)
Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)	
2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	15 Point(s)
2. b. Implementing the practices in a Nutrient Management Plan (NMP)?	10 Point(s)
2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated “impaired water body” (TMDL, 303d listed waterbody, or other State designation)?	10 Point(s)
2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a “non-impaired water body”?	10 Point(s)
2. e. Implementing practices that improve water quality through animal mortality and carcass management?	10 Point(s)
Water Conservation – Will the proposed project conserve water by: (select all that apply)	

3. a. Implementing irrigation practices that reduce aquifer overdraft.	15 Point(s)
3. b. Implementing irrigation practices that reduce on-farm water use?	10 Point(s)
3. c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	10 Point(s)
3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	10 Point(s)
Air Quality - Will the proposed project improve air quality by: (select all that apply)	
4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	10 Point(s)
4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	10 Point(s)
4. c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	10 Point(s)
4. d. Implementing practices that increase on-farm carbon sequestration?	10 Point(s)
Soil Health:- Will the proposed project improve soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits (Soil "T")?	10 Point(s)
5. b. Increasing organic matter and carbon content, and improving soil tilth and structure?	10 Point(s)
Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)	
6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	10 Point(s)
6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation Reserve Program (CRP) or other set-aside program?	10 Point(s)
6. c. Implementing practices benefitting honey bee populations or other pollinators?	10 Point(s)
6. d. Implementing land-based practices that improve habitat for aquatic wildlife?	10 Point(s)

Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	10 Point(s)
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	10 Point(s)
Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	10 Point(s)
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	10 Point(s)
Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	10 Point(s)

State Issues Addressed

7. Will the treatment you intend to implement using EQIP directly benefit a Federal or State listed, threatened, endangered or candidate species as identified in the State wildlife plan (Nebraska Natural Legacy Project)?	26 Point(s)
8. Will the treatment you intend to implement using EQIP result in a considerable reduction in an invasive plant species which has been identified as a statewide concern?	11 Point(s)
9. Will the treatment you intend to implement using EQIP result in the collection and use of livestock manure or city sludge from a CNMP for beneficial uses?	10 Point(s)
10. Will the treatment you intend to implement using EQIP result in wetlands being created, restored or enhanced?	9 Point(s)
11. Will the treatment you intend to implement using EQIP identified in an air quality assessment which will result in improved air quality?	5 Point(s)
12. Will the treatment you intend to implement using EQIP result in pollinator habitat being created or improved? Practice applied result in plantings which include milkweed species among a diverse mix of flowering plants. (Practice 327 Conservation Cover, Pollinator criteria as noted in 645 Upland Wildlife Habitat Management)	9 Point(s)
13. Will the treatment you intend to implement using EQIP result in a tree and/or shrub planting for conservation purposes?	11 Point(s)
14. Will the treatment you intend to implement using EQIP be applied on recently expired CRP, maintaining the CRP cover for the purpose of wildlife habitat, grazing or haying?	31 Point(s)
15. Will the irrigation system improvement you intend to implement using EQIP result in estimated water savings of at least 40% if located within an over appropriated river basin?	9 Point(s)

16. If the applicant who is applying for EQIP is also a previous/present contract holder or has been associated with a contract, has the applicant ever had a contract out of compliance or modified to reschedule a practice without a meritorious reason? Meritorious reason examples include personal hardship, adverse weather conditions, etc.	-25 Point(s)
17. Will the treatment you intend to implement using EQIP result in wind and water erosion control to "T" on all cropland in the contract?	26 Point(s)
18. Is the treatment you intend to implement identified in an current farm plan?	15 Point(s)
19. Will the treatment you intend to implement support the National Soil Health Initiative by including all five of the soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 20 and 21.	15 Point(s)
20. Will the treatment you intend to implement support the National Soil Health Initiative by including three of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 21.	10 Point(s)
21. Will the treatment you intend to implement support the National Soil Health Initiative by including at least one of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 20.	5 Point(s)

Local Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other local level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	400 Point(s)
2. Will sheet & rill and ephemeral erosion be controlled on the whole field? (based on the 2015 FSA Common Land Units.)	85 Point(s)

3. Are the fields void of any structural practices or does it contain structural practices that are non-functional and in excess of 20 years old since their construction?	50 Point(s)
4. Will all underground outlets be terminated at a distance greater than 30 ft. from any intermittent or perennial stream channel? The outflow from all UGO's will filter through a vegetated area. The outlet of the channel and the outflow from all UGO's will filter through a vegetated conservation practice within the contract area.	45 Point(s)
5. Is the EQIP application within a Local Work Group identified natural resources area of concern (See maps)?	5 Point(s)
6. Will the treatment you intend to implement using EQIP only consist of, one or more of the following, management practices: Cropland to Grassland Conversions, Cover Crops for 3 consecutive years, No-till, Diversifying the current crop rotation by incorporating small grains and/or planting of a perennial forage (512, 550, and/or 645) on an entire field basis.	215 Point(s)

Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	10 Point(s)
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	10 Point(s)
Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	10 Point(s)
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	10 Point(s)
Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	10 Point(s)

State Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other state level questions. If answer is “No”, proceed with evaluation to address the remaining <u>questions in this section.</u>	250 Point(s)
2. Will the treatment you intend to implement using EQIP result in the protection and improvement to the resource base on all grazing <u>lands in the contract?</u>	24 Point(s)
3. Will the treatment you intend to implement using EQIP result in improved soil quality with the use of either no-till or a resource conserving crop rotation on at least 50% of the land in the contract? See CSP enhancement CCR99 for conserving crop rotation definition.	16 Point(s)
4. Will the treatment you intend to implement using EQIP result in improved water quality?	14 Point(s)
5. Does the applicant who is applying for EQIP qualify for Limited Resource status?	24 Point(s)

6. Will the treatment you intend to implement using EQIP result in the use of variable rate technologies for nutrient application using computer controlled equipment that adjusts fertilizer application based on management zones or grids?	5 Point(s)
7. Will the treatment you intend to implement using EQIP directly benefit a Federal or State listed, threatened, endangered or candidate species as identified in the State wildlife plan (Nebraska Natural Legacy Project)?	26 Point(s)
8. Will the treatment you intend to implement using EQIP result in a considerable reduction in an invasive plant species which has been identified as a statewide concern?	11 Point(s)
9. Will the treatment you intend to implement using EQIP result in the collection and use of livestock manure or city sludge from a CNMP for beneficial uses?	10 Point(s)
10. Will the treatment you intend to implement using EQIP result in wetlands being created, restored or enhanced?	9 Point(s)
11. Will the treatment you intend to implement using EQIP identified in an air quality assessment which will result in improved air quality?	5 Point(s)
12. Will the treatment you intend to implement using EQIP result in pollinator habitat being created or improved? Practice applied result in plantings which include milkweed species among a diverse mix of flowering plants. (Practice 327 Conservation Cover, Pollinator criteria as noted in 645 Upland Wildlife Habitat Management)	9 Point(s)
13. Will the treatment you intend to implement using EQIP result in a tree and/or shrub planting for conservation purposes?	11 Point(s)
14. Will the treatment you intend to implement using EQIP be applied on recently expired CRP, maintaining the CRP cover for the purpose of wildlife habitat, grazing or haying?	31 Point(s)
15. Will the irrigation system improvement you intend to implement using EQIP result in estimated water savings of at least 40% if located within an over appropriated river basin?	9 Point(s)

16. If the applicant who is applying for EQIP is also a previous/present contract holder or has been associated with a contract, has the applicant ever had a contract out of compliance or modified to reschedule a practice without a meritorious reason? Meritorious reason examples include personal hardship, adverse weather conditions, etc.	-25 Point(s)
17. Will the treatment you intend to implement using EQIP result in wind and water erosion control to "T" on all cropland in the contract?	26 Point(s)
18. Is the treatment you intend to implement identified in an current farm plan?	15 Point(s)
19. Will the treatment you intend to implement support the National Soil Health Initiative by including all five of the soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 20 and 21.	15 Point(s)
20. Will the treatment you intend to implement support the National Soil Health Initiative by including three of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 21.	10 Point(s)
21. Will the treatment you intend to implement support the National Soil Health Initiative by including at least one of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 20.	5 Point(s)

Local Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other local level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	400 Point(s)
2. Will the treatment you intend to implement using EQIP result in a conversion from season long grazing to a rotational grazing system with facilitating practices including invasive species control?	129 Point(s)

3. Will the treatment you intend to implement using EQIP result in a season long grazing with facilitating practices including invasive species control?	25 Point(s)
4. Will the treatment you intend to implement using EQIP result in an improvement to an existing rotational grazing system with facilitating practices including invasive species control?	125 Point(s)
5. Will the treatment you intend to implement using EQIP result in the implementation of conservation practices to all grazing land contract acres that provides reliable water sources with adequate capacity and distribution?	28 Point(s)
6. Will the treatment you intend to implement using EQIP result in meeting productivity, vigor and health quality criteria on all grassland in the contract?	25 Point(s)
7. Has the applicant attended a public education meeting regarding Invasive Plant Species Control sponsored by an NRD, Weed Management Area, NRCS or other conservation partner within the last three years?	11 Point(s)
8. Is a portion of the treatment area being supported by other sources of funding such as LB701, Nebraska Environmental Trust, Weed Management Area funds or other conservation partnership activities?	11 Point(s)
9. Is the applicant willing to allow their treatment area to be utilized by local groups or agencies (NRCS, NRD, SWWMA, schools, 4-H clubs, landowner tours, extensions specialists etc.)?	9 Point(s)
10. Does the applicant have a signed treatment agreement with a local Weed Management Area?	16 Point(s)
11. Has the applicant received a direct benefit from improvements directly funded by LB701, Nebraska Environmental Trust, Weed Management Area or other sources?	11 Point(s)
12. Will the treatment you intend to implement using EQIP result in wetlands being restored or enhanced?	10 Point(s)

National Priorities Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.	
1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other national level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.	250 Point(s)
Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)	
2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	15 Point(s)
2. b. Implementing the practices in a Nutrient Management Plan (NMP)?	10 Point(s)
2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated “impaired water body” (TMDL, 303d listed waterbody, or other State designation)?	10 Point(s)
2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a “non-impaired water body”?	10 Point(s)
2. e. Implementing practices that improve water quality through animal mortality and carcass management?	10 Point(s)
Water Conservation – Will the proposed project conserve water by: (select all that apply)	

3. a. Implementing irrigation practices that reduce aquifer overdraft.	15 Point(s)
3. b. Implementing irrigation practices that reduce on-farm water use?	10 Point(s)
3. c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	10 Point(s)
3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	10 Point(s)
Air Quality - Will the proposed project improve air quality by: (select all that apply)	
4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	10 Point(s)
4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	10 Point(s)
4. c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	10 Point(s)
4. d. Implementing practices that increase on-farm carbon sequestration?	10 Point(s)
Soil Health:- Will the proposed project improve soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits (Soil "T")?	10 Point(s)
5. b. Increasing organic matter and carbon content, and improving soil tilth and structure?	10 Point(s)
Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)	
6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	10 Point(s)
6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation Reserve Program (CRP) or other set-aside program?	10 Point(s)
6. c. Implementing practices benefitting honey bee populations or other pollinators?	10 Point(s)
6. d. Implementing land-based practices that improve habitat for aquatic wildlife?	10 Point(s)

Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	10 Point(s)
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	10 Point(s)
Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	10 Point(s)
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	10 Point(s)
Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	10 Point(s)

State Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other state level questions. If answer is “No”, proceed with evaluation to address the remaining <u>questions in this section.</u>	250 Point(s)
2. Will the treatment you intend to implement using EQIP result in the protection and improvement to the resource base on all grazing <u>lands in the contract?</u>	24 Point(s)
3. Will the treatment you intend to implement using EQIP result in improved soil quality with the use of either no-till or a resource conserving crop rotation on at least 50% of the land in the contract? See CSP enhancement CCR99 for conserving crop rotation definition.	16 Point(s)
4. Will the treatment you intend to implement using EQIP result in improved water quality?	14 Point(s)
5. Does the applicant who is applying for EQIP qualify for Limited Resource status?	24 Point(s)

6. Will the treatment you intend to implement using EQIP result in the use of variable rate technologies for nutrient application using computer controlled equipment that adjusts fertilizer application based on management zones or grids?	5 Point(s)
7. Will the treatment you intend to implement using EQIP directly benefit a Federal or State listed, threatened, endangered or candidate species as identified in the State wildlife plan (Nebraska Natural Legacy Project)?	26 Point(s)
8. Will the treatment you intend to implement using EQIP result in a considerable reduction in an invasive plant species which has been identified as a statewide concern?	11 Point(s)
9. Will the treatment you intend to implement using EQIP result in the collection and use of livestock manure or city sludge from a CNMP for beneficial uses?	10 Point(s)
10. Will the treatment you intend to implement using EQIP result in wetlands being created, restored or enhanced?	9 Point(s)
11. Will the treatment you intend to implement using EQIP identified in an air quality assessment which will result in improved air quality?	5 Point(s)
12. Will the treatment you intend to implement using EQIP result in pollinator habitat being created or improved? Practice applied result in plantings which include milkweed species among a diverse mix of flowering plants. (Practice 327 Conservation Cover, Pollinator criteria as noted in 645 Upland Wildlife Habitat Management)	9 Point(s)
13. Will the treatment you intend to implement using EQIP result in a tree and/or shrub planting for conservation purposes?	11 Point(s)
14. Will the treatment you intend to implement using EQIP be applied on recently expired CRP, maintaining the CRP cover for the purpose of wildlife habitat, grazing or haying?	31 Point(s)
15. Will the irrigation system improvement you intend to implement using EQIP result in estimated water savings of at least 40% if located within an over appropriated river basin?	9 Point(s)

16. If the applicant who is applying for EQIP is also a previous/present contract holder or has been associated with a contract, has the applicant ever had a contract out of compliance or modified to reschedule a practice without a meritorious reason? Meritorious reason examples include personal hardship, adverse weather conditions, etc.	-25 Point(s)
17. Will the treatment you intend to implement using EQIP result in wind and water erosion control to "T" on all cropland in the contract?	26 Point(s)
18. Is the treatment you intend to implement identified in an current farm plan?	15 Point(s)
19. Will the treatment you intend to implement support the National Soil Health Initiative by including all five of the soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 20 and 21.	15 Point(s)
20. Will the treatment you intend to implement support the National Soil Health Initiative by including three of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 21.	10 Point(s)
21. Will the treatment you intend to implement support the National Soil Health Initiative by including at least one of the five soil health practices: 1) cover crops (340); 2) no-till (329); 3) conservation crop rotation (328); 4) nutrient management (590); and integrated pest management (595)? If yes do not answer questions 19 and 20.	5 Point(s)

Local Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other local level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	400 Point(s)
2. Will the treatment you intend to implement with EQIP funds contribute to the contract holders current grazing management plan that is being implemented and will benefit multiple resources (i.e. soil, water, plant, animal, air)?	10 Point(s)

3. Will the treatment planned under EQIP address a resource concern which will include one or more of the following practices - Cross fence (382), livestock pipeline (516), Watering Facility (614) or Water Well (642)?	100 Point(s)
4. Will the treatment you intend to implement using EQIP (two or more facilitating practices) result in a prescribed grazing system that utilizes intensive rotational grazing with a minimum of 3 grazing units (paddocks) including destocking (if necessary) to the suggested (528) stock rate?	165 Point(s)
5. Will the treatment planned under EQIP result in installing a single practice on a continuous (season long) grazing system (does not agree to reducing stocking numbers)?	-75 Point(s)
6. Would the applicant who is applying for EQIP be receiving their first contract if successfully approved (applicant has never been associated with another EQIP contract or entity that had one)?	25 Point(s)
7. If the participant is currently overstocked and will they destock to the suggested 528 stock rate?	75 Point(s)
8. Will the treatment planned under EQIP result in installing more than one practice on a continuous (season long) grazing system(does not agree to reducing stocking numbers)?	-50 Point(s)
9. Will the treatment you intend to implement using EQIP (two or more facilitating practices) result in a conversion from season long grazing to a rotational grazing system including destocking (if necessary) to the suggested (528) stock rate?	150 Point(s)
