

NRCS - NEBRASKA

To be completed by field office cultural resources coordinator when they determine that subsurface testing is necessary. Testing should be limited and the decision to complete extensive testing will be made in coordination with the CRS. Keep a copy. Send one copy to the Cultural Resources Specialist.

Shovel Test Form						
Project Name:						
Field Number:		Date:		Excavated By:		
Site Number:						
Shovel Test Number:		Diameter:		Depth:		
Describe Position on landscape:				Screen Size:		
Describe Position in Relation to Surface Scatter:				Ground Coverage:		
Relation to Datum:		Distance:		Bearing:		D.D.
RESULTS:						
Level:	Depth (cm)	Cultural Materials:	Features:	Soil Description:		
				Munsell Color	Soil Texture/ pH	Soil Sample Collected
Comments:						

*****Please Attach topographic map with the location of the site and the location of shovel test pits.**
