

## **STATEMENT OF WORK**

### **Irrigation Water Management (449)**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

#### **DESIGN**

---

##### **Deliverables**

1. Design documents that will demonstrate that the criteria in the NRCS practice standard have been met and are compatible with planned and applied practices.
  - a. Practice purpose(s) as identified in the conservation plan
  - b. List of required permits to be obtained by the client
  - c. List of facilitating practices
  - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
    - i. Volume of water (per irrigation & per season)
    - ii. Frequency of irrigation
    - iii. Application rate
    - iv. Environmental considerations
2. Written plan (and specifications or job sheets) including sketches and drawings shall be provided to the client that adequately describes the requirements to implement irrigation water management and obtain necessary permits.
3. Operation and maintenance plan.
4. Certification that the design meets practice standard criteria and complies with applicable laws and regulations.
5. Design modifications during implementation as required.
6. Additional details for design documentation as found in [Nebraska Irrigation Water Management Practice Documentation Requirements](#) for resource inventory and surveys, designs, plans and specifications.

#### **INSTALLATION (Implementation)**

---

##### **Deliverables**

1. Pre-installation conference with client.
2. Verification that client has obtained required permits.
3. Staking and layout of measures according to plans and specifications including applicable layout notes.
4. Installation guidance as needed.
5. Facilitate and implement required design modifications with client and original designer.
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
7. Certification that the installation process and materials meet design and permit requirements.
8. Installation documentation in accordance with [Nebraska Irrigation Water Management Practice Documentation Requirements](#) for layout.

**STATEMENT OF WORK  
Irrigation Water Management (449)**

**CHECK OUT**

---

**Deliverables**

1. Records of installation/implementation.
  - a. Extent of practice units applied
  - b. Actual amount of water applied during the growing season
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.
4. Check out documentation in accordance with [Nebraska Irrigation Water Management Practice Documentation Requirements](#) for compliance checking.
