

**INSTRUCTIONS FOR USE OF**

**NEBRASKA CONSTRUCTION SPECIFICATION**

**(NE-51) - CORRUGATED METAL PIPE CONDUITS**

**1. APPLICABILITY**

Construction Specification NE-51 is applicable to furnishing and installing all types, sizes, shapes, and coatings of corrugated metal pipe for culverts, drains, and conduits

**2. MATERIAL SPECIFICATION**

Material statements are included by reference to ASTM specifications on the standard drawing(s).

**3. ITEMS TO BE INCLUDED IN SPECIFICATIONS AND/OR DRAWINGS**

- A. Type, size, length, coatings, corrugation requirements, and gauge of pipe.
- B. Type of couplings and close riveting or standard riveting requirements.
- C. Details of dimensions and angles for pipe fabrication.
- D. Line and grade of the conduit.
- E. Cathodic protection requirements, if applicable.
- F. Select the appropriate standard drawings from EFM, Appendix 2. This specification cannot be used without a standard drawing which specifies the materials.
