NEBRASKA FORESTRY TECHNICAL NOTE HANDBOOK (NEFTNH)
 190-VI
 AMENDMENT NE 18

SUBJECT: ECS – FORESTRY TECHNICAL NOTE 71 – HOW TO PRUNE TREES

Purpose: To transmit Nebraska Forestry Technical Notes No. 71.

Effective Date: Upon receipt.

Background:

Forestry Technical Note No. 71, How to Prune Trees, was written by Peter J. Bedker, Joseph G. O'Brien, and Manfred M. Mielke, 1995, USDA, Forest Service, Northeastern Area State and Private Forestry. This reference is to be used in conjunction with the Tree and Shrub Pruning Standard (660) and Tree and Shrub Pruning Design Procedures (660DP). Although it is geared toward urban trees and arborists, the principles of tree pruning apply in rural settings as well.

If you have any questions please contact Constance Miller, NRCS State Forester, at (402) 437-4029 or by e-mail at constance.miller@ne.usda.gov.

Filing Instructions: File the index and the Technical Notes No. 71 in your NEFTNH.
