

## SUBPART A - PROCEDURES

NE511.08(a)

### §NE511.08 Construction plans

(a) A preliminary drawing and O & M plan will be sent to the field for review, comments, and concurrence for all structures which will be contracted under WF08 or RC&D and all other structures Class V and above. Engineering Plan Review Form NB-ENG-46 (Exhibit NE511.81), which is self-explanatory, should be sent to the state office as soon as the field review can be made so final drawings can be completed in accordance with the design and construction schedule.

Three copies of plans for non-contract work will be returned to the field. These plans may be used as final plans unless changes are required. Additional copies will be furnished on request.
