

PART 512 – CONSTRUCTION

SUBBPART E - ENGINEERING EQUIPMENT, RECORDS, AND COORDINATIONS

NE512.42(b)

§NE512.41 Records

(a) The job diary for Class III and IV jobs may be on NE-ENG 49 and 49a, as stated in the Nebraska supplements to the Conservation Planning Manual. However, the use of the job diary book (ENG 310) is encouraged for structures that will be included in the inventory of dams. The inventory of dams includes:

(1) All Class (b) and Class (c) dams;

(2) Class (a) dams more than 6 feet high and with a storage capacity below the crest of the emergency spillway of 50 acre-feet or more;

(3) Class (a) dams with a height of 25 feet or more and a storage capacity below the crest or the emergency spillway of more than 15 acre-feet.

§NE512.42 Coordination between disciplines

(b) The inspector for all project contracts and all inventory-size dams shall have a copy of design and investigation reports available for reference during construction.
