

Natural Resources Conservation Service
Application Ranking Summary
Comprehensive Nutrient Management Plan

Program: EQIP 2014	Ranking Date:	Application Number:
Ranking Tool: Comprehensive Nutrient Management Plan		Applicant:
Final Ranking Score:		Address :
Planner:		Telephone:
Farm Location:		

National Priorities Addressed

Issue Questions	Responses
<p>If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.</p>	
<p>1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other national level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.</p>	250 Point(s)
<p>Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)</p>	
<p>2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?</p>	15 Point(s)
<p>2. b. Implementing the practices in a Nutrient Management Plan (NMP)?</p>	10 Point(s)
<p>2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated “impaired water body” (TMDL, 303d listed waterbody, or other State designation)?</p>	10 Point(s)
<p>2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a “non-impaired water body”?</p>	10 Point(s)
<p>2. e. Implementing practices that improve water quality through animal mortality and carcass management?</p>	10 Point(s)

Water Conservation – Will the proposed project conserve water by: (select all that apply)	
3. a. Implementing irrigation practices that reduce aquifer overdraft.	15 Point(s)
3. b. Implementing irrigation practices that reduce on-farm water use?	10 Point(s)
3. c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	10 Point(s)
3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	10 Point(s)
Air Quality - Will the proposed project improve air quality by: (select all that apply)	
4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	10 Point(s)
4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	10 Point(s)
4. c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	10 Point(s)
4. d. Implementing practices that increase on-farm carbon sequestration?	10 Point(s)
Soil Health:– Will the proposed project improve soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits (Soil “T”)?	10 Point(s)
5. b. Increasing organic matter and carbon content, and improving soil tilth and structure?	10 Point(s)
Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)	
6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	10 Point(s)
6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation Reserve Program (CRP) or other set-aside program?	10 Point(s)

6. c. Implementing practices benefitting honey bee populations or other pollinators?	10 Point(s)	
6. d. Implementing land-based practices that improve habitat for aquatic wildlife?	10 Point(s)	
Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)		
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	10 Point(s)	
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	10 Point(s)	
Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)		
8. a. Reducing on-farm energy consumption?	10 Point(s)	
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	10 Point(s)	
Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:		
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	10 Point(s)	

State Issues Addressed

Issue Questions	Responses
1. Is the program application to support the development of a Conservation Activity Plan (CAP)?	5 Point(s)
2. Is this the first CAP 102 application for this site and owner?	325 Point(s)
3. If answered "no" to 2 and have a previous CAP, does a resource concern or situation as described in questions 4 through 11 currently exist for this application?	50 Point(s)
4. If answered "no" to 2, has the AFO received notification from Nebraska Department of Environmental Quality (NDEQ) or Environmental Protection Agency (EPA) that the current manure storage system and/or nutrient management systems does not meet state and/or NPDES requirements?	15 Point(s)
5. If answered "no" to 2, has the AFO expanded or modified the capacity (increased), the type of livestock, and/or manure storage structures where a NRCS CNMP was not developed or modified?	15 Point(s)
6. If answered "no" to 2, has the AFO purchased and/or leased additional ground for the application of the manure and/or wastewater? (The applicant must have direct control over the leased ground.)	15 Point(s)
7. If answered "no" to 2, has the AFO modified the nutrient management from manure nitrogen-based to phosphorus-based rates?	15 Point(s)
8. If answered "no" to 2, is the AFO planning to apply for an animal mortality facility?	15 Point(s)
9. If answered "no" to 2, has the AFO changed tillage management systems?	15 Point(s)
10. If answered "no" to 2, has the AFO changed the method of manure application (i.e. from injection / incorporation to broadcast with no incorporation; application via gravity to sprinkler)?	15 Point(s)
11. If answered "no" to 2, has the AFO changed ownership?	15 Point(s)
12. If answered "no" to 2 and have a previous CAP, are there no newly identified resource concerns existing for this current application?	-100 Point(s)
