

NATIONAL REGISTER OF HISTORIC PLACES

The web sites listed below may be used to obtain general information about historic properties (archeological, historical, or cultural) in Nebraska listed on the National Register of Historic Places (NRHP). Neither source will provide specific information about the location of numerous properties, particularly archeological or cultural sites in rural areas.

Properties listed in the NRHP are a very small portion of all known cultural resources. All known cultural resources are a very modest percent of all that likely exist. NRCS responsibilities for considering cultural resources includes finding presently unknown resources that may be affected by NRCS undertakings. The CRS must be involved in the evaluation of any identified cultural resources.
