BIOLOGY TECHNICAL NOTE NO. 52 - REVISED
Ritch Nelson
State Wildlife Biologist

Field Guide to the 2008 Farm Bill for Fish and Wildlife Conservation

Enclosed is a copy of a publication issued by the U.S. NABCI Committee and the Intermountain West Joint Venture which is intended to provide an overview of opportunities within the 2008 Farm Bill to benefit fish and wildlife populations and habitat. This document replaces the previous version and is available electronically.

Each new Farm Bill provides an array of unique conservation options. A summary of conservation practices, programs and other aspects of the Farm Bill are addressed in this field guide.
