FORESTRY TECHNICAL NOTE NO. 69
Constance Miller
State Forester

Using Windbreaks to Manage Odor from Livestock Facilities

“Using Windbreaks to Manage Odor from Livestock Facilities,” provides a fact sheet to encourage use of windbreaks for managing odors generated by livestock facilities. Also included in the fact sheet are the factors important for determining if a windbreak is appropriate, as well as design considerations for effectively planning a windbreak to successfully control odor. NRCS-IL is the originator of this publication.
