NEBRASKA TECHNICAL GUIDE (NETG) NOTICE NE-650

SECTION IV

- **SECTION IV TOOLS TABLE OF CONTENTS**
- **TOOLS**
 - **Nebraska Prescribe Grazing Design Tool:** Information for MLRA 102C plant communities and annual production has been updated to reflect information in the most recent Ecological Site Descriptions. There have been significant changes to production for several of the plant communities for all ecological sites.
 - **The Ecological Site Quick Reference:** Replaced with an Ecological Site Quick Reference for each MLRA. These MLRA documents replace the excel document which contained ecological sites for all MLRAs. Additional information has been added to the each quick reference. This information includes the state and transition model and plant community tables for each ecological site. The format of the new quick references makes it easier to select and print information for a specific site(s) and the formatting to letter size allows for easier use in the field.

Jobsheets, Engineering Drawings and Construction Specs – not included in the TGN, but reflects changes in section IV.

- NE-CPA-1 (Fence Jobsheet) – This jobsheet has been updated to make practice design and certification documentation more clear. Check boxes for planned and installed materials have been added as well as signature boxes for the client and NRCS representative.

If you have any questions, please contact Nadine Bishop, SRMS, at (308) 882-4263 extension 1017 or by email at nadine.bishop@ne.usda.gov.
