TECHNICAL GUIDE NOTICE NO. 591

This notice transmits updates to Section I, Maps and Section II, Hydric Soil.

Changes were made to update hydric soils terminology and to further clarify National Food Security Act Manual (NFSAM) applications. This bulletin covers the use of landform labels and soil types when applying NFSAM hydrology criteria for farmed wetland (FW) and farmed wetland pasture (FWP). The use of woody vegetation for determining if hydrology would result in a PC label is restated and maps defining areas of application have been developed

If you have any questions on these changes in, please contact Richard Vaughn at (402) 437-4127 or by e-mail [richard.vaughn@ne.usda.gov](mailto:richard.vaughn@ne.usda.gov) or Steve Scheinost at (402) 437-4117 or by email at [steve.scheinost@ne.usda.gov](mailto:steve.scheinost@ne.usda.gov).

Changes for all field offices are noted by "**ALL COUNTIES**" and should be made in all Field Office Technical Guides.
