TECHNICAL GUIDE NOTICE NO. 603

This notice transmits updates to Section II – Rangeland Interpretations on Ecological Site Descriptions for MLRA72 in the Field Office Technical Guide (FOTG).

Section II – Ecological Site Description for MLRA 72

Ecological site descriptions for Major Land Resource Area 72 are interpretations of plant community dynamics which include plant community composition tables, state and transition models, representative soil features, plant growth curves, climatic features, grazing land interpretations, and animal preference tables. The descriptions are a conservation planning tool in the preparation of grazing management plans, wildlife habitat management plans and other natural resource applications.

If you have any questions, please contact Dana Larsen, State Rangeland Management Specialist, at (308) 728-3781 or be e-mail at dana.larsen@ne.usda.gov.

Note: The State Office will archive a hard copy of all materials and copies of electronic files of materials removed on the Nebraska eFOTG site under Section II, Archive, Cultural Resources and Section III, Archive, Conservation Management Systems. If Field Offices wish to maintain an archived hard copy, of the above referenced standards as a reference, they may do so.

Changes for all field offices are noted by "**ALL COUNTIES**" and should be made in all Field Office Technical Guides.
