TECHNICAL GUIDE NOTICE NO. 627

This notice transmits updates to Section I, Maps.

The Nebraska Department of Environmental Quality (NDEQ) is now providing updated Nebraska Wellhead Protection Area Maps electronically rather than mailing paper copies. All Nebraska Wellhead Protection Area Maps are now posted on NDEQ's web page.

NRCS employees needing current Wellhead Protection Area Maps will access the current map on NDEQ's web page using the [instructions](#) posted on the SharePoint Home page under "Shared Documents." NDEQ's web page is password protected (login ID and password are included in the instructions).

You will also have the option to download "County Wellhead Area Maps" and the "Statewide WHP Area Shapefile" from the NDEQ Wellhead Protection site.

The "County Wellhead Area Maps" download is a 65MB file showing all 93 counties. We recommend NOT downloading this file because of time and space issues.

The "Statewide WHP Area Shapefile" downloads quickly as a zip file, but may not be up to date if recent changes have been made to a Wellhead Protection Area Map. The individual county maps are always the most current, while the "Statewide WHP Area Shapefile" will be updated every 30 to 60 days. If using this file, be sure the date of the "Statewide WHP Area Shapefile" is later than the date of the map of the communities you are interested in.

Wellhead information contained on this website should be considered confidential for security purposes. Maps produced should not be posted for public viewing.

The Nebraska State Office will no longer be updating or archiving Wellhead Protection Area Maps in Section I of the FOTG. Copies of Wellhead Protection Area Maps (both current and archived) maintained in Section I of the FOTG should be destroyed. If needed, paper copies of archived maps are available from NDEQ by contacting NDEQ Wellhead Protection Coordinator. Information used in eligibility determinations, ranking criteria or other program determinations should be maintained according to policy stated in [Nebraska Bulletin 300-0-15](#).

Broken links to any of the maps, archive map requests, or other problems on the NDEQ web page should be reported to: Ryan Chapman – Wellhead Protection Coordinator, email: [ryan.chapman@nebraska.gov](mailto:ryan.chapman@nebraska.gov), Phone: 402-471-3376.
