TECHNICAL GUIDE NOTICE NO. 633

This notice transmits updates to Section II – Natural Resources Information, Prime and other Important Farmlands and Endangered and Threatened Species Maps in the Field Office Technical Guide (FOTG).

**Section II**

We are removing the heading, “Prime and other Important Farmlands”; the soildatamart Crop Yields are not current and are not supported.

All maps for federal and state listed endangered and threatened species have been revised. Additional maps have been added for those species with critical habitat designations. The corresponding species list by county has also been updated. These range maps will be used with the existing programmatic agreements with U.S. Fish and Wildlife Service and the Nebraska Game and Parks Commission. Data layers of these range maps will also be made available to the field offices in GIS format in the near future.

If you have any questions, please contact Ritch Nelson, State Wildlife Biologist, at (402)437-4101 or by e-mail at: [ritch.nelson@ne.usda.gov](mailto:ritch.nelson@ne.usda.gov).
