Farmstead Energy Improvement (374) Implementation Plan and Record

Plan Attachments

- Plan view showing location of energy saving components.
- Detail drawings or schematics of the measures and appurtenances such as piping and wiring, mountings, foundations, etc.
- Specification sheets or shop drawings for the following (list items):

General Installation Notes

- All work shall be performed in conformance with applicable codes and manufacturer or supplier requirements.
- Where site excavation is needed, call 1-800-272-1000 at least three days prior to excavation.

Evidence of Proper Installation

- Code Official approval of installed items (attach copy).
- If Code Official approval is not required, obtain a signature on the statement below. For items installed by a certified professional, obtain the installer's signature. For items installed by the landowner, obtain the landowner's signature.

To the best of my knowledge, installation of the energy saving items has been in conformance with applicable codes and manufacturer or supplier requirements.

Landowner or Installer Signature

Date

Operation and Maintenance Requirements

- Replacement or retrofit systems and related components or devices shall be operated and maintained in accordance with the manufacturer's recommendations.
- Maintain records to document energy improvements. Retain and update records for a minimum of 5 years.
