

**STATEMENT OF WORK
Waste Treatment (629)
New York State**

These deliverables apply to this individual practice. or other planned practice deliverables refer to those specific Statements of Work.

Items marked with an asterisk (*) will be delivered to the Designated Conservationist

DESIGN

Deliverables:

1. Design documentation that will demonstrate that the criteria in NRCS practice standard have been met and are compatible with other planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. Practice standard criteria related computations and analyses to develop drawings, plans, and specifications including but not limited to:
 - i. Objectives and outcomes of implementation
 - ii. Process diagram showing volumetric flow rates, waste load projections, unit process volumes and hydraulic retention times, projected air emissions, and projected nutrient fate
 - iii. Expected system performance
 - iv. Annual operating costs where appropriate
 - v. Quantities and fate of any byproducts
 - vi. Control system requirements
 - vii. Process monitoring requirements
2. Documentation showing the facility or process has achieved the intended purpose in similar situations and locations
3. ***Detailed operation and maintenance requirements including such things as loading rates, O&M manuals for specific components, start-up procedures, trouble shooting guide(s), and monitoring and reporting plans.**
4. ***In cases where the practice location has changed, a statement to NRCS notifying the agency of the change in location as well as a map showing the new practice location. The statement will include the landowner's name, program name, contract number and practice name.**
5. ***Signed Warranty of Technical Services Provided form indicating compliance with practice standard criteria and applicable laws and regulations.**
6. Design modifications during installation as required.

INSTALLATION

Deliverables

1. Delay of installation until TSP receives written verification from NRCS that all NEPA requirements have been satisfied for this practice.
2. Pre Installation conference with client and contractor.
3. Verification that client has obtained required permits.
4. Staking and layout of components as shown on the drawings. Includes layout notes as appropriate.
5. Facilitate and implement required facility design modifications with client and system provider.
6. System start-up assistance and initiate process monitoring
7. ***Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.**
8. ***Signed Warranty of Technical Services Provided form indicating compliance with practice standard criteria and applicable laws and regulations.**

**STATEMENT OF WORK
Waste Treatment (629)
New York State**

CHECK OUT

Deliverables

1. Record of application including type and size of components installed
2. ***Start-up data showing facility or process is working as intended**
3. ***Certification that the facility or process meets NRCS standards**
4. ***Test results and interpretations as required**
