

STATEMENT OF WORK
FIELD OPERATIONS EMISSIONS REDUCTION (376)
NEW YORK

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

DESIGN

Deliverables:

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. List of required permits to be obtained by the client.
 - c. List all required and/or facilitating practices.
 - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
 - i. Crop rotation
 - ii. Field operations and timing for each crop
 - iii. Management reports from current erosion prediction technology that details energy consumption by operation.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits.
3. Operation and maintenance plan.
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations.
5. Design modifications during installation as required.

INSTALLATION

Deliverables

1. Pre-installation conference with client.
2. Verification that client has obtained required permits.
3. Layout according to plans and specifications including applicable layout notes.
4. Installation guidance as needed.
5. Installation inspection (according to inspection plan as appropriate)
 - a. Actual layouts/equipment used by crop and timing of each operation.
 - b. Inspection records.
6. Facilitate and implement required design modifications with client and original designer.
7. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
8. Certification that the installation process and materials meets design and permit requirements.

CHECK OUT

Deliverables

1. Records of installation
 - a. Actual field operations used by crop and timing.
 - b. Extent of practice units applied located on plan map.
2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits.
3. Progress reporting.
