

**STATEMENT OF WORK
Well Water Testing (355)
Ohio Template**

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

Items marked with an asterisk (*) will be delivered to the Designated Conservationist

DESIGN

Deliverables:

1. Design documentation that will demonstrate that the criteria in NRCS practice standard have been met and are compatible with other planned and applied practices.
 - a. Practice purpose(s) as identified in the conservation plan.
 - b. Written verification that well was initially installed under Ohio water well standards
 - c. List of required permits to be obtained by the client.
 - d. Practice standard criteria related computations and analyses to develop plans and specifications including but not limited to:
 - i. List of Methods/Procedures of Water Testing
 - ii. The Name of State Certified Laboratory Conducting the Testing
 - iii. Identify specific use of water or concerns
 - iv. Identify specific water quality parameters for which testing is being performed as necessary to meet the specific use noted above
 - v. Environmental Considerations (e.g. water quality)
2. Written plans including sketches and drawings shall be provided to the client that adequately describes the location and time of water samples taken.

INSTALLATION

Deliverables

1. Pre installation conference with client and contractor.
2. Verification that client has obtained required permits.
3. Facilitate and implement required design modifications with client and original designer.
4. *Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
5. *Certification that the water testing was conducted by a State Certified Laboratory.

CHECK OUT

Deliverables

1. *Date, Time, location of water testing. Methods used for water sampling.
2. *Date, Time of Water Test Analysis, Contaminants Tested for.
3. *Laboratory Identification and Certification.
4. *Test results and interpretations; including statement of suitability of water for its intended purpose, and when applicable, recommendations for treatment.
