

**STATEMENT OF WORK**  
**Controlled Traffic Farming (334)**  
**Ohio NRCS**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

---

**DESIGN****Deliverables:**

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
  - a. Practice purpose(s) as identified in the conservation plan.
  - b. List of required permits to be obtained by the client
  - c. List all required and/or facilitating practices
  - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
    - i. Limiting wheel/track traffic to no more than 33% of the soil surface
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to apply the practice. Plans and specifications shall be developed in accordance with the requirements of conservation practice standard Controlled Traffic Farming (Code 334) and documented on the 334 Controlled Traffic Farming Design Tool (excel tool).
3. Operation and maintenance plan documented on the 334 Implementation Requirements Document.
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations documented on the 334 Implementation Requirements Document.
5. Design modifications during application as required documented on the 334 Implementation Requirements Document.

---

**INSTALLATION****Deliverables**

1. Pre-application conference with client
2. Verification that client has obtained required permits
3. Application guidance as needed
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during application
6. Certification that the application process meets design and permit requirements

---

**CHECK OUT****Deliverables**

1. Records of application
  - a. Extent of practice units applied
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits documented on the 334 Implementation Requirements Document.
3. Progress reporting

---
