TECHNICAL GUIDE NOTICE

SUBJECT: Extension of Seeding Date for Grassed Waterways

Ohio is extending the seeding deadline for Fiscal Year 2012 to **September 30, 2012**, for Grass Waterways established in the Field Office Technical Guide, Section IV, Appendix A.

Field offices need to work with engineering staff to determine if additional protection, such as erosion control blankets are needed to protect waterways due to the delay of seeding.

A handwritten signature in black ink, appearing to read "Mark E. Smith", written over a horizontal line.
