TECHNICAL GUIDE NOTICE #305

SUBJECT: OHIO FIELD OFFICE TECHNICAL GUIDE – *Section I, Number 14*

Purpose: To transmit notice for distribution of the “Designing Facilities for Pesticide and Fertilizer Containment” manual to each field and area office.

Expiration Date: This notice expires when the contents have been read and fully discussed with the field office staff.

“Designing Facilities for Pesticide and Fertilizer Containment” is referred to in the Ohio NRCS Standard 702, Agrichemical Handling Facility.

The District Conservationist will inform field office staff, including those offices without NRCS presence, where the material will be filed. The manual is an addition to the list of Technical Guide Reference material that is not available electronically.

DOUGLAS L. ZEHNER
Acting State Conservationist
