

DATE: 08-18-04 (original e-mail message)

In an effort to meet an August 20th deadline as directed in National Bulletin 450-4-11, the following changes have been made in the Ohio e-FOTG:

- New Subsection entitled "FOTG Transmittals" was added to Section I. It contains items such as Tech. Guide Notices, e-mail notices, meeting minutes of the Technical Guide Committee, etc. The items will be listed in descending order by date.

On the e-FOTG splash screen, the area entitled "What's Changed Recently" shows all the items that I added yesterday (reference the above explanation). **PLEASE NOTE:** These are all "old" notifications for changes made to the FOTG. These items form a history of the notifications that have been issued since the FOTG went electronic.

There may be some additional changes made to the structure before August 20th. Those of us who are making these changes will keep you informed (you will also see this information in the "What's Changed Recently" section).
