

## Source Data for the Official Soil Survey

### **Seneca County - General**

The Seneca County soil survey was published in 1980 and SSURGO certified in 2005. The published soil survey report is the official source of map unit descriptions and series descriptions. The SSURGO data is the official source of soil maps. The official source of soil data is in eFOTG. The spatial and tabular data may be downloaded from:

<http://soildatamart.nrcs.usda.gov/Enter.aspx?Page=Download&Survey=OH147&State=OH&Limit=InFrameOnly>

A web-based set of data is also available. Interpretations and data may be accessed at:

<http://soildatamart.nrcs.usda.gov/Enter.aspx?Page=Report&Survey=OH147&State=OH&Limit=No>

The data on these sites are the most current available.

Copies of the published soil survey are available from:

#### **TIFFIN FIELD OFFICE**

#### **CONTACT INFORMATION AT:**

#### Disclaimer

NRCS will not perform any evaluations of these data for purposes related solely to State or local regulatory programs.

The interpretations and analyses derived from these data do not eliminate the need for onsite sampling, testing, and detailed study of specific sites for intensive uses. Thus, these data and their interpretations are intended for planning purposes only. Files are dated and users are responsible for obtaining the latest version of the data.

Soil maps in the soil surveys may be copied or printed without permission.

Enlargement of these maps, however, could cause misunderstanding of the detail of mapping. If the map is viewed or printed from an online or digital source, the viewing scale and printing scale may differ from the original publication scale. Please rely on the bar scale on each map sheet for proper map measurement.
