

**STATEMENT OF WORK**  
**Cross Wind Trap Strips (589C)**  
**Oklahoma**

These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.

## DESIGN

---

### Deliverables:

1. Design documents that demonstrate criteria in NRCS practice standard have been met and are compatible with planned and applied practices
  - a. Practice purpose(s) as identified in the conservation plan.
  - b. List of required permits to be obtained by the client
  - c. List all required and/or facilitating practices
  - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
    - i. No. and width of trap strips
    - ii. Location of trap strips
    - iii. Vegetative cover
    - iv. Width of cropped strip
    - v. Orientation of trap strips in relation to direction of erosive winds
    - vi. Wind Erosion Prediction System or other program documentation of erodability.
    - vii. Additional provisions, as required, wind erosion control, snow management, forage harvest management, or grazing management.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to install the practice and obtain necessary permits. Plans and specifications shall be developed in accordance with the requirements of conservation practice standard Cross Wind Trap Strips (Code 589C).
3. Operation and maintenance plan
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
5. Design modifications during installation as required

Note: *Job sheet 589C 01 – Cross Wind Trap Strips is available. Documentation of trap strip vegetation, width, orientation, and erosion calculations are required using OK-589C-CERT.*

## INSTALLATION

---

### Deliverables

1. Pre-installation conference with client
2. Verification that client has obtained required permits
3. Staking and layout according to plans and specifications including applicable layout notes
4. Installation guidance as needed
5. Facilitate and implement required design modifications with client and original designer
6. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
7. Certification that the installation process and materials meets design and permit requirements

Note: *Job sheet 589C 01 – Cross Wind Trap Strips is available. Documentation of trap strip vegetation, width, orientation, and erosion calculations are required using OK-589C-CERT.*

## CHECK OUT

---

### Deliverables

1. Records of installation
  - a. Extent of practice units applied
  - b. Actual materials used
2. Certification that the installation meets NRCS standards and specifications and is in compliance with permits
3. Progress reporting

Note: *Job sheet 589C 01 – Cross Wind Trap Strips is available. Documentation of trap strip vegetation, width, orientation, and erosion calculations are required using OK-589C-CERT.*
